Yes.

Yes. GMeet

Yes, WhatsApp group

Yes

Yes, it has such activities

Nice conference

As a student don't know much.

During interaction with Keynote speakers

Yes, But I'm attending in online mode

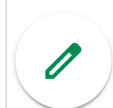

yes, good response

Yes, LinkedIn

Yes. Paper Publishing Network will be very much helpful.

Yes, It was highly beneficial to understand the status of current research on material sciences and devices going on across the globe. I was also very effective to receive feedback for own research work from other the scientists and researchers and also to find effective collaborative partner.

yes,

Yes. Virtual group.

Not much in Online mode

NA

yes, on opto-electronics devices applications

it was good.

Yes.Gaining insights from peers in my field.

not much

YES

(a)Yes.

(b) The quality of research going on across the world all got accumulated in this conference. Truly engaging as an passionate Materials researcher enthusiast.

As I joined the conference in online mode, it was nice to connect with all the professionals

5. Suggestions for improvement:

Please provide any suggestions or recommendations for improving future editions of the conference:

Good

..

Overall good

no

Please keep similar subject papers in one session and experts from relevant area as session chair

Full paper submission and reply should be on time

Perfect

Mention topics of the keynote talks in the program schedule in advance.

Have a Format for Oral presentation atleast the first Page, for best paper award also put the photo of the presenter.

You can add more international speakers

Everything went well

Try to reduce registration fees

Nice conference

None

Pooling of similar subjects in a session should be proper.

No suggestions

This is sufficient

More participant in offline mode will be better

The conference has been satisfactory to meet it's very purpose for exchange of research ideas and further collaborative interactions.

Nothing

Publications in SCI journals

As per my opinion conference was perfect in all respect

The notification of the conference, if is posted earlier then it will be good more.

Sir, keep continuing with Hybrid mode.

Choices of Keynote speakers may be improved and should cover broader area of material sciences based on current interests and demand.

Continue

NIL

Kindly make reminder also on WhatsApp.

plan and schedule of conference chair must be in advance at least one day before.

Send online links of session by email and do category of presentation means environmental biotechnology people should present only in this category

It is better not to invite speakers who are not related to the conference specification

Wider variation of Keynote Speakers may be considered.

Well organised

NO suggestions

Efficient registration

Everything was well organized

all are good

It was good enough

Network, sound quality to be improved

It was best experience

There should be some hand-on training regarding material science.

No suggestion. it was a valuable experience with significant learning opportunities.

I think 2 days time period is better than three days for a conference.

I would suggest to keep up this good work. Very well managed.

Please kindly include more keynote speakers as it was very knowledgeable.

No suggestions

nothing

No suggestions

Providing access to recorded sessions would help attendees catch up on missed presentations.

abstract proceeding with doi no. will be more attractive to the authors

..

no

Well communicated regarding everything. I couldn't find relevant paper presentation in my session

Abstract should publish in ISBN or ISNN

A good oppurtunity to session chair.

Response of the queries in the whatsapp group is exemplary. One suggestion is to provide session chairs details in advance.

Learnt and observed different methods n tools in research

All are very nice and informative

Everything went well and quite smoothly

good experience

Session plan

Arrangement of Parallel session and keynote speaker was good

Got new networks.

Everything is fine

I had joined the conference online. It was a great experience. Everything was well organized. Specifically, I like the instant replies of our doubts in the whatsapp chat, which helped us a lot.

Very positive

Overall it was good

The conference has been well organized. I heartily thank the organizers for the same. However there is a point which I would like to mention. I had attended the conference online as an invited speaker. I think the registration amount collected for the same (Rs 3000) is just too much from a candidate who is participating in online mode as he/she has no access to the offline facilities there. According to me the registration amount from the online participants must not exceed Rs 1000 as it was in the case of the previous conference. Kindly consider this next time.

All the sessions are very Nice and interesting

They given nice presentation

online was good

I appreciate mainly the members who were controlling WhatsApp group ICRTMD 2025 for their quick and positive response with great patience . Thank very much to Them .

The process of maintaining the conference, online time management are the Best part of this conference. I am not finding any bad point in this total conference.

The Talks of the Keynote Speakers were very Fruitful. The Conference Schedule was also very well organized. The various Paper presentations were also very much informative. I, convey my Sincere Gratitude to the Organizing Team of ICRTMD-2025 for giving me the opportunity of being a part of this very Excellent Conference. I, am also very much Thankful to the Organizing committee for giving me the Opportunity of Invited Oral Presenter as well as Session Chair. Thanking You.

Positive: Excellent organization and supports. Overall a very successful conference.
Negative: Choices of Keynote speakers may be improved.

Highly satisfied with the acceptance of everyone with patience.

Overall conference was good.

Downloading of certificate in another platform quite time consuming process.

Able to present was good.

well planned , smoothly conducted. resolved all issues.

Although I found the organizing committee very helpful when I sent my abstract, I found that there was no scientific committee to evaluate the relevance of my abstract specialization to the conference topics.

Have the speakers' invitations been studied related to the conference topics or only for participation??????

It is better to send the online presentations before the conference.

My experience with the conference was a waste of money , because even the paper publication was not clear for me till now, and no one gave help; they already closed the WhatsApp group of the conference

And no update for the paper!!!!!!!!. And unfortunately,

It was also another issue that my certification was provided without my job name (Prof.)
But, to be fair, I think this conference may be useful to the researchers related to the same science field.

The overall experience of mine is totally smooth and perfect.

Excellent management and informative conference website

Positives- Effective execution and prior intimation

Negatives- categories were shifted in scheduling

ALL WELL

All good

All the keynote speaker sessions

arrangements are ok

Sessions were on time, Great work.

Schedule to be strictly followed, if not interrupted due to technical problem.

Had positive experience

Everything Good

Since I attended the conference online mode so it was positive experience.

The keynote sessions were insightful, and the discussions on recent advancements were highly informative.

Healthy question answer sessions after presentations were very interactive and informative

I was very excited to attend this conference as it was my first time attending this conference series, and I had a wonderful experience. I want to present my work at upcoming conferences.

No

na

Google links are easily accessible and hence, possible to join any session as per needs.

The keynote sessions were insightful and inspiring.

Overall satisfactory

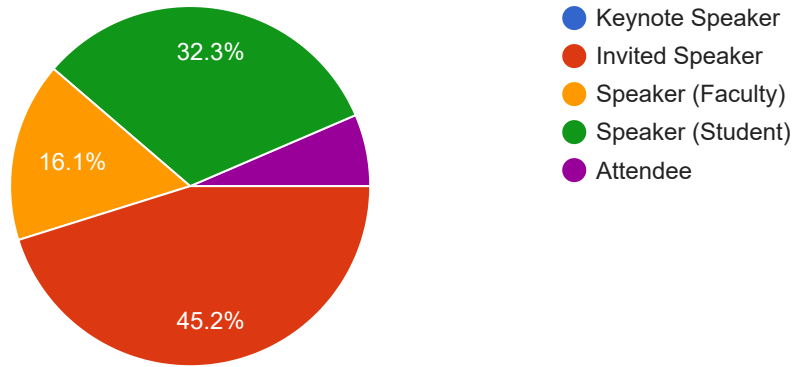

well organized event
